

**VILLAGE OF RUIDOSO
SOLID WASTE DEPARTMENT
SERVICE GUIDELINES Eff. 7/1/2011**

Commercial & Residential monthly garbage fees consist of dumpster service, yard waste removal & recycling service.

Disposal of the following approved large items is a courtesy and account holders are required to schedule a removal day with the solid waste office before disposing of these items. 1 bulky item (household furniture) and 1 white good (water heater, washer, dryer, stove, refrigerator, freezer, etc.) is allowed per year per household/commercial business.

Due to equipment damage, construction material is NOT an approved item nor are tires and carpet. These items must be delivered by the account holder to Sierra Contracting 378-1091 or Green Tree Solid Waste 378-4697, located in Ruidoso Downs.

Dumpsters are for household garbage only.

Yard Waste (pine needles, brush, slash (branches) should be placed in front of the Homeowners property as close to the road as possible. If power lines are above, then place 5ft from your nearest dumpster.

- ☐ ● Please consolidate needles in large piles. Do not bag any yard waste as it is not accepted.
- ☐ ● Do not mix household trash, rocks, fireplace ashes/burnt firewood, construction material (concrete, lumber, roofing, etc.) with yard waste. Hard objects & nails damage equipment. Construction Material is the Homeowner's responsibility and needs to be taken to Sierra Contracting or Green Tree Solid Waste @ the owners expense.
- ☐ ● Do not pile yard waste close to fence/wall or private property, this will prevent any damage.
- ☐ ● Do not pile yard waste under low electrical power lines or any other lines as well as low hanging tree branches.
- ☐ ● Branches should be cut to 6 ft long. Please separate tree stumps as they are picked up separately.
- ☐ New Construction Clearings are to follow the above guidelines. Slash should not be more than 6 ft. long, place in accessible large piles making sure it is not blocking roads, meters, and driveways and not under any low lines/branches. Contractor/Homeowner will make arrangements with the Forestry Department to haul clearings themselves or have the Solid Waste Department pick up. The Forestry Department will contact the Solid Waste Department.
- ☐ Cardboard should be clean & flat, clean Plastic-logo grades 1-6, and clean Mixed Paper should be placed in a blue recyclable container.

Non-compliance of these guidelines will be directed to Code-Enforcement.
PLEASE REPORT ILLEGAL DUMPING TO CODE-ENFORCEMENT 258-7365

The above guidelines will provide prompt and safe service.

Thank you for your cooperation,

The Village of Ruidoso Solid Waste Department (575) 257-1502
